Guide to verifying compliance

Introduction

The guide describes how an authorised representative can verify that an installation is in compliance, i.e., having fulfilled its obligation to surrender allowances corresponding to emissions.

Prerequisites are that an authorised representative must have proposed the annual emissions, the verifier must have verified the emissions and an authorised representative must have carried out the surrender transaction for the installation

This guide applies to operators and aircraft operators.

Step by step

Execute the following steps from the Union Registry homepage:

<https://unionregistry.ec.europa.eu/euregistry/SE/index.xhtml>

Step	Action	Interface
1	Logon to the Union Registry.	
2	Select Account in the "Accounts" menu. You can now view all the accounts for which you have a responsibility.	

Steg	Action	Interface																											
3	Click the account number to access an account.																												
4	Click the Compliance tab. If the tab text is green, the installation is in compliance.																												
5	Select ETS Phase and click Refresh .																												
6	Verified emissions for every year of the phase is displayed.	 <table border="1" data-bbox="1078 725 1509 898"> <thead> <tr> <th>Year</th> <th>Action</th> <th>Emissions (*)</th> </tr> </thead> <tbody> <tr><td>2013</td><td></td><td>-</td></tr> <tr><td>2014</td><td></td><td>-</td></tr> <tr><td>2015</td><td></td><td>-</td></tr> <tr><td>2016</td><td></td><td>-</td></tr> <tr><td>2017</td><td></td><td>-</td></tr> <tr><td>2018</td><td>✓</td><td>-</td></tr> <tr><td>2019</td><td></td><td>-</td></tr> <tr><td>2020</td><td>✓</td><td>400</td></tr> </tbody> </table> <p><small>(*) Emissions entered or corrected by Competent Authority</small></p>	Year	Action	Emissions (*)	2013		-	2014		-	2015		-	2016		-	2017		-	2018	✓	-	2019		-	2020	✓	400
Year	Action	Emissions (*)																											
2013		-																											
2014		-																											
2015		-																											
2016		-																											
2017		-																											
2018	✓	-																											
2019		-																											
2020	✓	400																											
7	When the annual emissions have been verified by the verifier, it is given the status "Y".																												
8	An installation / aircraft operator is in compliance when the totals are equal.	 <p>EU Compliance</p> <p>Cumulative Verified Emissions: 400</p> <p>Cumulative Surrendered Units: 0</p> <p>Compliance Status published at previous 1st of May:</p> <p>Carry-Over from previous phase: 0</p> <p>Compliance Figure: -400</p> <p>Dynamic Compliance Status: B ⓘ</p>																											

Step	Action	Interface
9	The Compliance Figure must be "0". If the figure is negative, to few allowances have been surrendered. See row 8 for an example.	
10	The Dynamic Compliance Status will show "A" when the installation / operator is in compliance.	 <p> EU Compliance Cumulative Verified Emissions: 400 Dynamic Compliance Status: B  Cumulative Surrendered Units: 0 Compliance Status published at previous 1st of May: Carry-Over from previous phase: 0 Compliance Figure: -400 </p>
11	If the requirements in rows 7-10 are not met, the installation / operator is not in compliance and has probably not fulfilled its commitment.	 <p> EU Compliance Cumulative Verified Emissions: 400 Dynamic Compliance Status: B  Cumulative Surrendered Units: 0 Compliance Status published at previous 1st of May: Carry-Over from previous phase: 0 Compliance Figure: -400 </p>
